

WEEKLY MARKET PRICE 17-2025

- *The escalation of the U.S.-China trade war, marked by Beijing's imposition of higher tariffs on American cotton, threatens to destabilize global cotton trade flows. Given the risk of sudden shipment halts to China, the near-term pressure is on the downside.*
- *Chinese yarn prices maintained their downward trajectory over the past week, although the rate of decline eased.*
- *Yarn prices in India remained stable over the past week, despite the recent ban imposed by Bangladesh on Indian yarn imports via road.*
- *Cotton yarn prices in Pakistan witnessed only slight changes last week, following substantial drops in earlier weeks.*
- *Polyester fiber prices extended their decline over the past four weeks, driven by a sharp correction in upstream material costs.*
